

Delaware 2005 Legislative Initiatives and Sample Language

Return of Voted Ballot by Close of Polls on Election Day

We notice Delaware requires UOCAVA voters to return their voted ballot by 12:00 noon on the day before the election. This deadline is a day earlier than the deadline for voting if these citizens were voting in person. This could present a problem, particularly for citizens stationed overseas, where mail is frequently delayed and unpredictable. In these cases, these voters need every day available to them prior to the close of polls to ensure timely return of ballots. It is for this reason we recommend Delaware accept voted ballots from all UOCAVA citizens until the close of polls on election day.

Electronic Transmission of Election Materials

Since the 1990 general election, electronic transmission has proven to be a valuable alternative method for facilitating the enfranchisement of military persons and overseas citizens serving their country who may have otherwise been unable to vote. This initiative has helped to ensure that these citizens were not disenfranchised by allowing them to cast a ballot when they would not otherwise have been able to vote due to time and location constraints.

Throughout an election year cycle, various circumstances exist that require the need for this alternative procedure in order for citizens to vote. The basic concept of electronic transmission of election materials is to secure high-speed delivery of election materials to and from the voter and local election officials. Your support in developing the **acceptance of electronic transmission for all aspects of the process**, with proper controls, would cut the ballot transit time at least in half. This would reduce the major obstacle to voting absentee and allow local election officials more administrative flexibility in preparing election materials.

Consideration should be given to expanded use of modern technology in the absentee voting process. We realize Delaware has enacted legislation which provides for the electronic transmission of the Federal Post Card Application (FPCA) for registration and absentee ballot request. We encourage expanded use of this alternative to include electronically sending the ballot to the voter and accepting the voted ballot from the voter where circumstances would otherwise disenfranchise a citizen. Below please find suggested sample language allowing for electronically sending the ballot to the voter and accepting the voted ballot from the voter.

Sample Language

An applicant who is a member of the United States Uniformed Services or the United States merchant marine, a family member, or is a qualified elector living outside the United States, may apply for registration and an absentee ballot by electronic transmission if otherwise qualified to apply for and vote by absentee ballot. An auditor or clerk may send and receive absentee ballot applications and accept voted ballots from eligible electors via electronic transmission.

Late Registration Procedures

We recommend that **Delaware allow persons recently separated from the Uniformed Services or overseas employment, and their family members, to be able to register late or be exempt from registration.** Many of these citizens go through a transition period when they first leave the Uniformed Services or overseas employment and may reside in your state just prior to an election and this time frame does not meet your state's normal residency requirements. Often, the date of discharge or termination of overseas employment and a state's registration requirement combine to disenfranchise a discharged military member or overseas citizen returning home after employment abroad. Special procedures to allow these persons to register and vote would solve this problem. Twenty-six states currently allow such procedures.

Sample Language

An individual, or accompanying family member who has been discharged or separated from the Uniformed Services, the merchant marine, or from employment outside the territorial limits of the United States, too late to enable him or her to register by the regular state deadline for registration, shall be entitled to register for the purpose of voting at the next ensuing election after such discharge, separation, or termination of employment.

Enfranchise Citizens Who Have Never Resided in the U.S.

There are many U.S. citizens who have never resided in a state and under current law are not entitled to vote. These are usually first or second generation citizens who are subject to U.S. income tax and all other requirements of citizens. Except for the fact that they have never resided in a state, they would be eligible to vote in elections for Federal office. Some local election officials make exceptions and allow these citizens to vote. Thirteen states have passed legislation allowing these citizens to claim the legal residence of a parent. **We recommend these citizens be allowed to vote in elections for Federal offices** where either parent is eligible to vote under UOCAVA.

Sample Language

If a U.S. citizen outside the United States who has never lived in the United States has a parent who is a qualified elector, then that person is eligible to register and vote where his or her parent is a qualified elector.

Emergency Authority for Chief Election Official

During a period of a declared emergency or other situation where a short time-frame for ballot transmission is created, it is recommended that **Delaware's Chief Election**

Officials have the authority to designate alternate methods for handling absentee ballots to ensure voters have the opportunity to exercise their right to vote. The Chief Election Official and the Federal Voting Assistance Program could establish expeditious methods for handling absentee ballots including electronic transmission.

Sample Language

If a national or local emergency or other situation arises which makes substantial compliance with the provisions of the Uniformed and Overseas Citizens Absentee Voting Act impossible or unreasonable, such as a natural disaster or an armed conflict involving United States Armed Forces, or mobilization of those forces, including State National Guard and Reserve components of this state, the Chief Election Official may prescribe, by emergency orders or rules, such special procedures or requirements as may be necessary to facilitate absentee voting by those citizens directly affected who otherwise are eligible to vote in the state.

The Chief Election Official shall adopt rules describing the emergency powers and the situations in which the powers will be exercised.

Expand Use of Federal Write-In Absentee Ballot

Currently the Federal Write-In Absentee Ballot (FWAB) may be used only in general elections for Federal offices only. This ballot is prepositioned worldwide at Embassies and Consulates, military installations and overseas organizations and corporations with American membership. By **expanding its use to include special, primary and runoff elections for Federal offices**, citizens would not be disenfranchised because regular ballots are not received in a timely manner. Frequently, there is insufficient time between the call for a special election and the actual election and between primary and runoff elections. Allowing use of the FWAB in these elections would reduce the possible need for legal action when insufficient time exists for the ballot to be received, voted and returned to be counted. During past primaries, on an *ad hoc* basis, several states and jurisdictions allowed the FWAB to be used for offices other than Federal offices. Eleven other states have legislatively expanded its use beyond the Federal law.

In addition, for those citizens that desire to vote in elections for Federal office only, the acceptance of the FWAB transmission envelope as **a request for registration simultaneously with the submission of the FWAB** would further simplify the process, improve on transit time and help ensure enfranchisement. It should be noted that the information requested on the FWAB transmission envelope is basically the same as the information requested from the voter on the Federal Post Card Application (FPCA). We

recommend the FWAB transmission envelope and FWAB be accepted simultaneously as a registration form and ballot by the state for general election and Federal offices if:

- (1) the information submitted complied with the state's registration requirements;
- (2) the voter is otherwise eligible to vote absentee in the jurisdiction where the request is submitted;

- (3) the request is received by the appropriate state election official not less than 30 days before the election or by the registration deadline established by the state.

The adoption of this initiative would save the state money and alleviate administrative responsibilities on the part of the local election official.

Sample Language

- Expanded use of the FWAB:

If the voter is residing outside the United States or a member of the United States Uniformed Services, merchant marine, or a family member, and a qualified elector, he or she may use the Federal Write-In Absentee Ballot in general, special, primary, and run-off elections for local, state and Federal offices.

- Use of FWAB as a Combined Request for Registration and Ballot Submission:

If the voter is residing outside the United States, or is a member of the United States Uniformed Services, merchant marine, or a family member, and a qualified elector, he or she may use the Federal Write-In Absentee Ballot (FWAB) transmission envelope as a request for registration simultaneously with the submission of the FWAB if:

- (1) the information submitted complies with the registration requirements of the state;*
- (2) the voter is otherwise eligible to vote absentee in the jurisdiction where the request is submitted; and*
- (3) the request is received by the appropriate state election official not less than 30 days before the election or by the registration deadline established by the state.*
